Curriculum: Contact Program

PROGRAM OVERVIEW This is a new, stand-alone program where residents will spend all three years of residency at Cleveland Clinic's main campus and nearby satellite facilities throughout northeast Ohio.

At Cleveland Clinic, you will gain experience in all aspects of podiatry to prepare you for your choice of a community-based or academic career. You'll have exposure to advanced foot and ankle surgical procedures and techniques as well as research opportunities to further prepare you for clinical practice, academic career, or fellowship.

Our diverse academic program allows residents to work in collaboration with residents and faculty from other specialties, while gaining up-to-date information on all aspects of medical management pertaining to the practice of podiatry.
