PROGRAM OVERVIEW

The program is multifaceted and well-rounded. Surgical experience includes forefoot, rearfoot and ankle surgery. Residents are required to do research leading to poster presentations or papers of publishable quality. There are three hospital divisions (Washington Township, Cherry Hill and Stratford) along with the (2) surgical centers where surgeries and patient care occurs. We have been approved by the CPME as a PMSR with RRA Certification. Upon successful completion of the residency training, all graduating residents will be eligible to take rear foot and reconstructive ankle surgery board qualification exam as well as ABPM board qualification exam
