PROGRAM OVERVIEW McLaren Macomb podiatric surgery residency is the evolution of Civic Hospital/Kern, and is the oldest continually operating training program in the US for podiatric surgery. Our graduates will enter practice well prepared, with notable alumni that have gone on to serve as Residency Program directors, Deans of Podiatric Medical Schools, and leaders in research. Our program has heavy emphasis on academics with weekly lectures, conferences, McGlamry reviews and interdisciplinary lectures with other departments at McLaren Macomb or through Michigan State University's Statewide Campus System. We also host monthly Journal Clubs and Journal reviews where we critically review a high volume of current literature. Our residents will exceed volume and diversity requirements with a wide variety of pathology. We have a busy ER and our residents will see complex trauma with both podiatry and the trauma orthopedics service. Our resident clinic offers a robust practice management experience with opportunity for residents to practice semi-autonomously
